

DEAR READERS

Welcome to the first edition of the Safehotels Newsletter 2018. We will circulate the newsletter several times a year, providing you with updates on Safehotels activities and useful information on hotel safety and security around the world. Let us know if there is anything additional you would be like to be featured in the Newsletter and feel free to share our news items with your colleagues.

GLOBAL PRESENCE

The number of Safehotels certified hotels is growing all the time. Safehotels currently has certified hotels in 60+ countries and 160+ cities globally. Please see the 'Certified Hotels' page on our new website for locations.

Examples of hotels around the world with successful certification include Media One Hotel Dubai - Raffles Hotel Istanbul, Radisson Blu Hotel Minneapolis - Park Inn Heathrow - Sankara Hotel Nairobi - Swisshotel Izmir, Posadas Fiesta Americana Mexico City - Radisson Blu Hotel Riga

USA LAUNCH AND FREE WEEKEND IN A SAFEHOTELS CERTIFIED HOTEL

Following a successful pilot in November for five hotels in Minneapolis, including the Radisson Blu Hotel Mall Of America where the winning team of this years Super Bowl stayed. Safehotels are going on a USA tour in February and March to certify Carlson Rezidor hotels in 10 American Cities.

You can follow the tour on Safehotels social media where pictures will be posted of each hotel and city visited. There is a free weekend in a Safehotels Certified hotel of your choice for the lucky person who identifies all 10 cities and the order they will be visited between 22nd February and 10th March 2018.

RECENT CERTIFICATIONS

Our most recent new certifications include the “Country Inn & Suites Bloomington Mall of America” and the “Country Inn & Suites Brooklyn Center”, both in the USA, and the “Capital hotel & Spa” in Ethiopia. Radisson Blu hotels certified included Durham in the UK and Minneapolis Downtown in the USA.

HOTEL SAFETY AND SECURITY TOP TIPS

Top Tip 1

Media stories were recently published on a hotel guest in-room safe hack, where certain room safes can be opened using a generic manufacturers door opening code. This happens when the in-room safe is delivered to the hotel with a generic digital code on the safe door keypad, but when installed by the hotel the code is not deleted and changed before the in-room safe becomes operational. If you are a frequent traveler or always use a hotel in-room safe you can read the full article at: <https://goo.gl/XD38RS>
